Statistics at the ECB

I Mestieri dello Statistico, Genova 19 February 2018

All views expressed are those of the speaker and not necessarily those of the ECB.

Overview

- 1 Introduction
- The functions of the ECB/Eurosystem/ESCB
- 3 Data needs at the ECB
- 4 Statisticians at the ECB
- 5 ECB statistics

Introduction

My academic studies

2013 - Bachelor Degree in Statistics and Maths - University of Genova

2013 - Erasmus program - Technische Universität Dortmund

2016 - Master Degree in Statistics and Economics - University of Milano Bicocca

My working experience

Since 2016 at the ECB... Trainee Research Analyst

Why am I here?

Statistics at ECB – Why data are important? Who are the Statisticians?

The ECB

Key ECB / Eurosystem / ESCB functions

Monetary policy

Define and implement monetary policy

Financial
Stability /
Banking
Supervision

Banking supervision and contribute to stability of the financial system

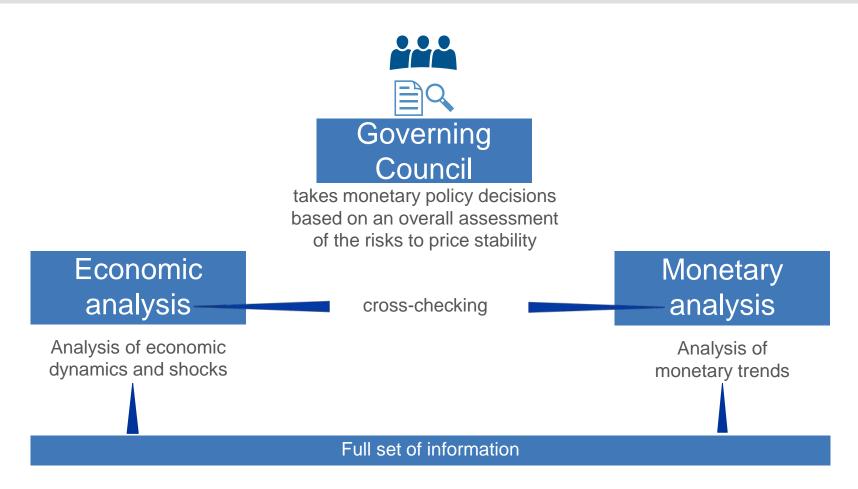

Payment systems

Promote smooth operation of payment systems

Data needs of ECB's monetary policy strategy

Primary objective: price stability

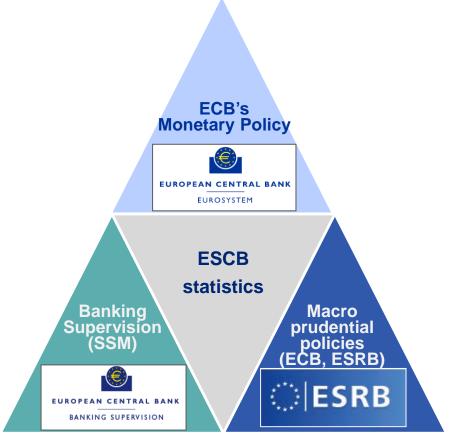

New data needs resulting from the crisis

- ECB's new responsibilities for macro- & micro-prudential policies
- Policy decisions are based on data

Need of more granular data

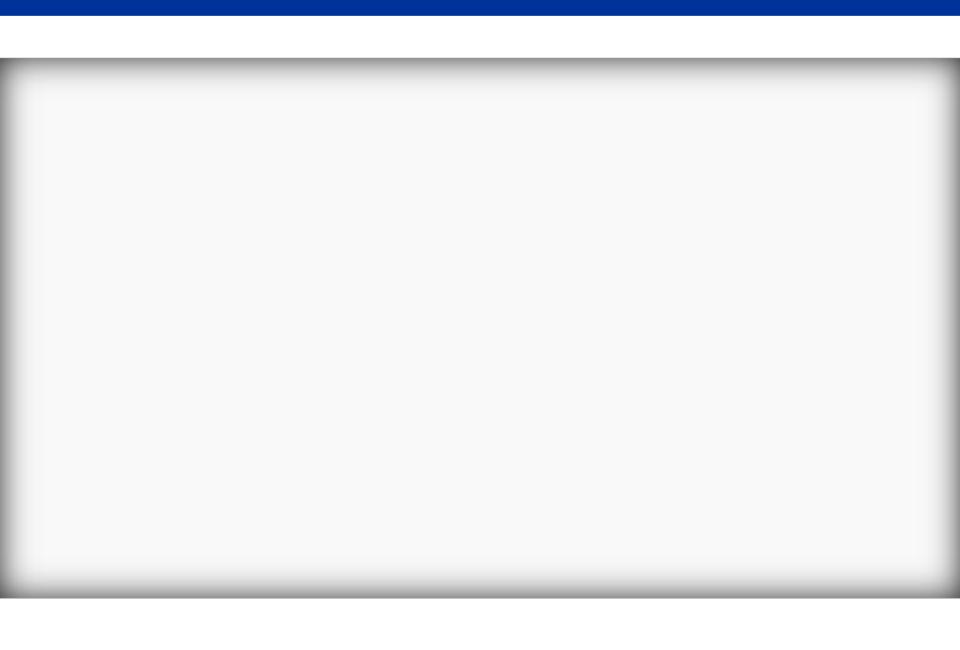

Single Supervisory Mechanism - SSM

The Single Supervisory Mechanism (SSM) refers to the system of banking supervision in Europe.

Let's watch a video to find out more about the SSM: https://youtu.be/1RI7n7y-eXg

Supervisory Data - My working experience

Data collection

- Supervisory data are collected from 4600+ credit institutions.
- 500+ reports received every day.

Data production

- 2800+ Key Risk Indicators are calculated for the 119 significant banks supervised directly by the ECB.
- 200+ financial reports every day.

Data dissemination

Data are used by European Institutions to ensure consistent supervision within the Euro Area.

Statisticians at the ECB

Who are they?

- Statisticians
- Mathematicians
- Data Scientists

... but also Physicists, Economists, Engineers and many others!

DG-Statistics in numbers...

250+ people working at DG-Statistics from 28 EU Member States.

Traineeship

60+ trainees joined DG-Statistics on 2017.

Only 30% of female applicants → ensure gender diversity is a current priority for DG-Statistics.

ECB statistics

The ECB provides its statistics free of charge as a public good!
